1. Introduction Lesson 03

NOTE: This write up assumes you have a PC with Microsoft operating system

- **A red line with a red dot is a command to do on your computer**
Black line(s) below is (are) what happens on the screen

In the last lesson we looked at browsers. We only looked at the screen & used the mouse. We clicked on many icons, did not create any. Remember my definition of an icon is something we click on to do something.
